

Garden Partners Wish List 2006

With the help of our donors and partners, we have been able to offer productive and essential program activities since 1999. The generosity of individuals, business, our board, volunteers and staff has enabled us to respond to the need for therapeutic gardening in care facilities throughout the Portland Metropolitan area.

As we began our 7th program year, we were asked the question, "what do you need and what is on your wish list?" We answered the question by identifying specific items and needs that will assist and enhance our programming.

We hope this list will help you figure out how to help us! Of course, cash gifts are always welcome as they allow us to address immediate needs as they emerge.

Please accept our heartfelt thanks for your ongoing commitment to Garden Partners. And if you are a new donor, let us welcome you with open arms and assure you that we are steadfast in our commitment to those we serve.

Thank you,
The Board of Directors
